RE: DOCKET NO. W-02052A-05-0528, & W-02052A-05-0529 DECISION NO. 68609 DATED 3/23/2006

SECOND MAILING

The ADEQ Certificate for Approval to Construct for the arsenic treatment system is attached.

The Company hasn't received the Approval to Construct the water distribution system due to some problems with the easements and also some funding delays. We request an extension to file since the time frame isn't available at this time.

The project has been divided into phase one (Arsenic treatment system) and phase two (Water distribution system) so we may proceed with the arsenic treatment system. The arsenic treatment system is the most important to bring the system into compliance according to ADEQ's requirement. The equipment is ready to ship and bids for installation should go out very soon.

If you have any questions regarding this matter please call Vern Denning, Pres. & Project Mgr. at 520-480-0915, or Betty H. Tibbitt, sec/treas at 520-387-7641.

Sincerely,

Betty H. Tibbitt  
Sec/Treas.
